About Andalusia Historic House, Gardens & Arboretum

With its soaring white columns and superbly crafted interiors, the mansion at Andalusia is one of the finest, most distinctive examples of Greek Revival architecture in the United States. Inhabited from the 1790s until the 1970s, the story of Andalusia parallels and reflects that of the nation itself. Visiting this National Historic Landmark is a journey back in time, an invitation to see firsthand the traditions and tastes of the generations of Biddle family members who called it home.

Andalusia's gardens and arboretum mix preserved native woodlands with spectacular gardens that evoke the romantic English landscape tradition. Visitors can stroll the expansive property on a self-guided tour, take in sweeping views of the Delaware River, and are encouraged to bring a picnic to enjoy on the porch or under the shade of a tree.

In 2024, Andalusia became the only American "Partner Garden" of the Royal Horticultural Society, England's largest garden charity. Andalusia was recently named the RHS's Overseas Partner Garden of the Year.
